SAUVIGNON BLANC

VINEYARD REGION

The Awatere and Wairau Valleys of Marlborough.

VINTAGE CONDITIONS

Growing conditions in Marlborough were ideal, with warm temperatures during flowering and fruit set. The dry and settled summer ripened the fruit beautifully. These conditions continued through harvest ensuring the fruit came in healthy and flavoursome.

VINIFICATION

Parcels were brought into the winery, quickly pressed and run to tank to protect from oxidation. The juice was settled, then racked, warmed and inoculated with a range of aromatic yeasts. After approximately four weeks the ferments were finished. The wines were chilled and topped so that the aromatic flavours were released from the yeast lees. After another four weeks the wines were racked, and warmed ready for blending, after which they were fined using traditional methods to promote vitality and freshness.
